HOW WILL YOU BE AFFECTED BY THE GRANT OF A PERMIT?

I value and appreciate the predominant neighbourhood character of this area, which comprises of single dwellings with open well landscaped backyards.
The proposed development does not reflect the preferred neighbourhood character of this area.
There is insufficient space for adequate landscaping. Landscaping will not grow successfully in the limited space available.
Such a large development will destroy the amenity surrounding residents and visitors to the area currently enjoy.
The visual bulk from the built scale of the proposed development will be very imposing as it will be visible from surrounding properties and the street.
Insufficient space for adequate landscaping, increased site coverage (from previous application) and building up to/on the boundary, all indicate the proposal is an overdevelopment of the site.
Traffic and parking congestion will be an issue as the proposed development will increase both. The increased congestion in the street will also pose a significant risk to the safety of the many children and elderly who use the street to walk to nearby schools, kindergartens and community activities.
